

BANKMED**ANNEXURE B6: BANKMED PLUS PLAN (WITH SAVINGS)****Schedule of benefits with effect from 1 January 2026****STATUTORY PRESCRIBED MINIMUM BENEFITS**

Notwithstanding any provisions to the contrary in this schedule, the Scheme will fund:

- 100% of the diagnosis, treatment and care costs of the Statutory Prescribed Minimum Benefits (PMBs), subject to PMB regulations, if those services are obtained from a Designated Service Provider (DSP) in South Africa; or
 - the relevant Scheme Rate for the diagnosis, treatment and care costs of the Statutory Prescribed Minimum Benefits if a beneficiary voluntarily accesses PMBs via a non-DSP in South Africa, when provision is made for a DSP according to this schedule; or
 - 100% of cost for involuntary use of a non-DSP in South Africa, subject to PMB regulations.

Pre-authorisation, medicine formularies and Scheme protocols (also known as “Care Plans”, “Baskets of Care”, or “Treatment Baskets”) may apply.

Diagnosis costs are only regarded as a PMB if the result of diagnostic investigations confirms a PMB diagnosis.

When insured limits are specified in this schedule, the limit will first be utilised for the payment of the relevant claims, and thereafter continued funding will apply for PMB claims only, subject to PMB regulations.

Where a benefit is indicated as “payable from Savings” or as “no benefit” in this schedule, insured benefits shall nevertheless be provided for PMBs in South Africa, subject to PMB regulations. PMB claims shall not be funded from Savings.

Additional arrangements pertaining to PMBs (subject to PMB regulations) are set out in the Preamble to Annexure B and in Annexure D (Claims Procedure and General Provisions Regarding Benefits).

STATUTORY PRESCRIBED MINIMUM BENEFITS**PRO RATING OF BENEFITS FOR MEMBERS JOINING DURING THE COURSE OF A FINANCIAL YEAR**

Beneficiaries admitted during the course of a financial year are entitled to the benefits set out in this schedule, with the maximum benefits being adjusted in proportion to the period of membership calculated from the date of admission to the end of the financial year (rule 16.1.5), except for stated wellness and preventative care benefits, which shall not be subject to pro-ration.

EXPLANATION OF ANNUAL THRESHOLD AND ABOVE THRESHOLD BENEFITS

The Above Threshold Benefit (ATB) provides continued cover for non-PMB day-to-day claims, as an insured benefit, once a member has depleted his available Savings for the year.

The Above Threshold Benefit can only be accessed once the Annual Threshold has been reached and is limited as indicated in this section.

Accumulation of Claims (paid from Savings) towards the Annual Threshold:

Where indicated, day-to-day claims are first paid from available Savings, until the Annual Threshold is reached, and thereafter from the Above Threshold Benefit (ATB).

Relevant claims that are payable from Savings accumulate towards the Annual Threshold at 100% of Scheme Rate. Any difference between the cost of an account and the Scheme Rate will not accumulate towards the Annual Threshold, although this difference may be covered from available Savings.

The Annual Threshold is set at R25 700 for a Principal Member + R19 100 per adult dependant + R6 300 per child dependant (limited to three children). The Annual Threshold is a combined family threshold and is calculated by adding the Threshold value for each family member together.

EXAMPLE:

For a family consisting of a member, one adult dependant and one child dependant, the Annual Threshold will be R51 100 (R25 700 + R19 100 + R6 300).

The Annual Threshold is pro-rated (reduced) if a member joins after 1 January each year, by dividing the total Threshold for the year by 12 and multiplying this amount by the remaining number of months in the year.

The Annual Threshold is re-calculated when a dependant is added or removed during the year, or when a child dependant becomes an adult dependant (paying the rate for an adult dependant).

Above Threshold Benefits:

Once the Annual Threshold has been reached, continued benefits apply for claims that are subject to Above Threshold Benefit (ATB), as indicated in this schedule. ATB claims are funded at 100% of Scheme Rate as an insured benefit, until the Above Threshold Benefit (ATB) is depleted.

The Above Threshold Benefit (limit) is set at R23 000 for a Principal Member + R17 300 per adult dependant + R5 700 per child dependant (limited to three children). This is a combined (family) limit and is calculated by adding the individual limits per family member together.

The Above Threshold Benefit can only be accessed when the total (combined) Annual Threshold for the family has been reached.

EXAMPLE:

For a family consisting of a member, one adult dependant and one child dependant, the ATB will be R46 000 (R23 000 + R17 300 + R5 700).

The difference between the Scheme Rate and the cost of an account, may be paid from available Savings (e.g. if there is an unused Savings balance from previous years), however, this excludes any and all shortfalls that may arise on a PMB claim.

The ATB is pro-rated (reduced) if a member joins after 1 January each year, by dividing the total Threshold for the year by 12 and multiplying this amount by the remaining number of months in the year.

The ATB is re-calculated when a dependant is added or removed during the year, or when a child dependant becomes an adult dependant (paying the rate for an adult dependant).

There is no clawback (debt owing to the Scheme) on overspend on ATB due to the removal of a dependant or the resignation of a member during the year.

A self-payment gap will occur when Savings is depleted, and the member has not yet reached the Annual Threshold. The member will need to self-fund claims during the self-funding gap, until the Annual Threshold is reached. The member must, however, continue to submit claims to the Scheme as these will accumulate towards the Annual Threshold (at 100% of Scheme Rate) until the Annual Threshold is reached.
